FAQ's about Damon Braces

Michael Curry
DDS MS

**Orthodontic
Specialist for
Children and Adults**

**3604 Preston Road
Suite 500
(1 block N of Parker)
Plano, Texas 75093**

972-596-2917

**Straight teeth are just
the beginning.**

Ask for Damon braces.

- **faster results**
- **greater comfort**
- **treatment without tightening**

Are all braces the same?

With the Damon System, we don't just align the teeth; we create beautiful smiles. Dr. Curry takes into account a number of factors when first diagnosing a smile. Each individual's face, profile and other factors are important in anticipating what they will look like in their 40s, 50s and beyond. The Damon System is designed to deliver results for a lifetime.

How long does treatment take?

Treatment time with the Damon System is typically faster than with conventional braces. Also, fewer appointments are usually required during treatment.

Since the Damon System works more quickly, does that mean it is harsh or unsafe?

No. In fact, what makes the Damon System work more quickly is that it uses far gentler, more biologically sensible forces than conventional braces. The low-friction nature of the system assures improved tooth position and improved facial harmony.

Will my teeth hurt after adjustments?

Very light "shape memory" titanium wires are used that gently guide your teeth to their ideal position.

Many people experience very little discomfort.

Aren't braces big and bulky?

Not any more! Braces are much smaller than they were just a few years ago, and new materials are now used that make them very discreet.

What about adult treatment?

No problem. Adults can be treated quickly, easily, and most importantly, to a high-quality result.

How much does the Damon System treatment cost?

We know that cost is a big question for anyone considering braces. The cost of braces depends on the kind of treatment you need and how long it will take. Damon Braces are usually similar to the cost of traditional braces. Our office offers flexible and affordable monthly payment plans.

Does insurance cover Damon System treatment?

If you have orthodontic coverage, Damon System braces are covered to the same extent as regular braces. We will be glad to check your orthodontic coverage benefits for you.
